

# The Bosted System

Janani, Project Manager

Team Online A/S

# Team Online A/S

- Technology supplier for the social service sector
- We developed the Bosted System, a market- leading IT system
- We've specialized in the social service sector for more than 10 years

# The Bosted System

A socio-educational IT-system to support the working procedures in social service centres

A system for documentation and knowledge sharing

Users of the Bosted System:

- Residential places
- Activity centres for people with physical and mental disabilities
- Workshops
- Training centres/rehabilitations centres
- Centres for people with mental illness
- Centres for people with substance abuse

The system is used by most of the social service centres in Denmark

# Why use the Bosted System?

- Improves and supports working procedures
- Increases the quality of documentation
- Connects the social service sector

## **Other advantages:**

- Web-based – easy to access
- Profiles – easy to find data
- Private log-in – increases the security
- Archive – saves data securely
- Rights – Security
- IP-blocking - Security

# Modules

· Logbook and Action Plan

· Medicine handling

· Calendar

· Activities

# Ready for export

- Can be used in other countries as well
- Successful implementation in Malta
- Our intention is to create a common platform for documentation and knowledge sharing within the social service sector across nations
- We follow the EU legislations within this area
- We like to let other countries benefit from Bosted System, too!

Thank you for listening
